**ELECTRIC DENT WIZARDS**

TS1080	<b>TS1080 — Electric Dent Grip</b> TITE-SPOT'S new Dent Grip™ tool removes dents by welding a special bolt to the surface of the car and pulling out the dent. Just twist to remove. The bolt can be resharpened many times.	\$165.00	
TS1090	<b>TS1090 — Electric Slide Hammer</b> TITE-SPOT'S new electric slide hammer is so simple to use. Just weld the slide hammer's special bolt to the car; pull or slap and just twist to remove! It's that easy! • Includes: Two hammers, one 2lb. steel hammer, and one 11oz. aluminum hammer for lighter work	\$275.00	
TS1081	<b>Replacement Pulling Bolt</b> for Electric Dent Grip	\$11.00	
TS1091	<b>Replacement Pulling Bolt</b> for Electric Slide Hammer	\$11.00	

**TITE-SPOT UPGRADE KITS**

TS HMSC	<b>HEAT MANAGEMENT SYSTEM CHILLER</b> <b>ALL UPGRADE KITS INCLUDE:</b> Refrigerates your shop's compressed air for extra cooling capacity. Uses no extra shop air. Welding electrodes last longer. <b>LET'S DO THE MATH:</b> To show the quantity of heat we must dissipate $I^2R =$ power lost in the welding cables that must be dissipated. I is the current the welder is putting out ( say 4,000 amps) so $I^2$ equals 16,000,000, a very big number, R= the resistance of 17 feet of welding cable @ .0035 ohms per foot = .0595 ohms, a small number So the power to dissipate (16,000,000 x .0595) = <b>952,000 watts</b> or, to put it another way, the heat of <b>9,520</b> 100 watt light bulbs, a lot of heat	\$395.00	
TS 102 PLIERS	<b>UPGRADE KITS FOR: LENCO; PORTA-SPOT; OTHER WELDERS</b> <b>ALL UPGRADE KITS INCLUDE:</b> Welding cord set 8'6" long: Foot pedal switch on 8' cord: One spare set of standard tips: One set of Hi-LO tips: Door panel tip: Sharpening tool: Air Block Tool Caddy: Air control valve: Attaching bolts	\$1,195.00	
TS COOL	<b>UPGRADE KITS FOR: LENCO; PORTA-SPOT; OTHER WELDERS</b> <b>ALL UPGRADE KITS INCLUDE:</b> Welding cord set 8'6" long: Switch in handle of one welding gun: One set welding tips and one set of screw-in adapters: One stud welding tip: Sharpening tool: Tool Caddy: Air control valve: Attaching bolts	\$1,195.00	

**SERVICE PARTS**
